

*A wide range of colours
for GreenCoat® products*

Choosing the right GreenCoat® product is easy!

GreenCoat® is SSAB's brand for innovative, eco-conscious colour coated steel solutions for the building industry. As the greenest and one of the most comprehensive offerings of high quality colour coated steel for exterior building applications, GreenCoat® products provide many distinct advantages.

Most GreenCoat® products feature a bio-based coating which uses a substantial portion of Swedish rapeseed oil instead of

traditional fossil fuel oils. The bio-based coatings do not only offer environmental advantages, but also increased performance.

Below you can find the right GreenCoat® product for your application. GreenCoat® products are eco-conscious, UV-resistant (up to R_{UV}5), energy efficient, scratch resistant, have good formability and offer colour stability over the years.

Product offer - Roofs

NATURA Bio-based coating made with Swedish rapeseed oil (BT). GreenCoat Pural BT GreenCoat Pro BT GreenCoat PLX Pro BT GreenCoat PLX Pural BT GreenCoat Crown BT GreenCoat Mica BT	ENERGY EFFICIENT Reflects the sun and lowers energy requirements for cooling inside. GreenCoat Cool	OUTDOOR DURABILITY Best colour and gloss retention over the years. GreenCoat Pural BT GreenCoat Pro BT GreenCoat Mica BT GreenCoat Crown BT
COLOUR REPEATABILITY The tightest tolerances for perfect colour matches from delivery to delivery. GreenCoat Crown BT	ENHANCED FORMABILITY Specialized products for tinsmiths/metal roofers. GreenCoat PLX Pro BT GreenCoat PLX Pural BT	

Natura: These GreenCoat® products use a bio-based coating which uses a substantial portion of Swedish rapeseed oil instead of fossil oil, which is unique on the market. The benefits are their proven high quality combined with a durable bio-based coating.

Energy Efficient: GreenCoat Cool provides you with an outer skin on your building that reflects solar radiation. Choose this when you have a building in need of cooling.

Outdoor durability: These GreenCoat® products have our longest guarantees for outdoor durability. They are proven to withstand decades of harsh weather, even in the tough Nordic climate.

Colour repeatability: Choose this product when you need special, tight colour tolerances for your application. Modular roofing is a typical product application.

Enhanced formability: Products for skilled roofing craftsmen who demand material with high formability. The steels in these products have been developed together with metal roofers and are formable by hand – even down to -15 °C.

Product offer - Façades
