Near-term outlook

### Ruukki Building Products
- Residential construction activity is forecast to be at the same level as the previous year in Finland and to show slight growth in the other Nordic countries
- In Poland and the Baltics, demand for building products is forecast to grow compared to the previous year
- Renovation construction will grow faster than new construction
- A moderate recovery in construction growth is expected in Ruukki’s main markets in 2014

### Ruukki Building Systems
- In Finland, demand for industrial and commercial construction is expected to remain weak
- In the other Nordic countries, demand for commercial and industrial construction activity is forecast to be at a good level
- In Russia, the growth outlook is slightly weaker than earlier

### Ruukki Metals
- Demand growth for special steels is outperforming demand for standard steels, especially in markets outside Europe
- Good prospects for sales growth in special steels
- Service centre sales and mill deliveries are forecast to remain steady during the second quarter
