

# SSAB Zero™ Certificate of carbon emissions

- Audited to a third-party verified method
- Without mass balancing allocation of emission reduction
- Without carbon offsets

Carbon emissions as kg CO<sub>2</sub>e emissions per kg steel:

Scope 1

0.0

Direct carbon emissions from SSAB's operation

Scope 2

0.0

Indirect carbon emissions from generation of SSAB's purchased energy

Scope 1+2

0.0

Combined carbon emissions from SSAB's operations and purchased energy

## Independent verification

DNV Business Assurance Finland Oy Ab has verified the CO<sub>2</sub>e emissions of the SSAB Zero® steel product family for Scope 1, Scope 2 and transportation between production sites. Note that emissions from the painting process of color coated products are not included in the verification. The "SSAB Zero® CO<sub>2</sub>e Emissions Verification Statement" is available on [ssab.com](https://ssab.com).
