

Conveyor Rails

General Product Description

Cold-formed conveyor rail is highly accurate roll formed standard section.

It is manufactured by roll forming using SSAB's high-quality steels. It is mainly used in the construction, transportation and manufacturing industries where dimensional accuracy and high-quality steels are required. Standard steel grades are S235J2C+N or S350GD+Z275MAC, other steel grades upon request.

Dimensions

h (mm)	b (mm)	c (mm)	d (mm)	t (mm)	r (mm)	M (kg/m)
30	30	8	20	2	2	1.47
41	35	10	24	2.5	2.5	2.33
